

## SECTION MEETING MINUTES

May 11, 2006

Present: Dale Greene, Larry Gerlach, Rick Hackman, Tony Rossi, Mark Beever, George Beever

The President called the meeting to order at 7:05PM.

**Treasurer:** Larry Gerlach reported a balance of \$270.87. New members: Cory & Josh Fetzer, 402 east Lehman Street, Lebanon, PA 17046, 717-270-1081.

**Webmaster:** Tony Rossi reported that he has added a new section to the website, the "Library". The first items that he has put in there are technical documents regarding Estes motors. The database for the "Flight Log" portion of the website is being built. Rick Hackman will be entering data starting with the earliest Flight Logs, and George Beever is entering the most recent.

**Section Advisor:** Glenn Feveryear could not attend the meeting.

**Competition:** The plans for RAMTEC-12 are moving along. Larry Gerlach reported that we still have several items that had been donated to the club by Dave O'Neal when he moved last year. It was decided to hold a silent auction at RAMTEC for two of the items: a brand new, never used Aerotech "Mantis" launch pad, and a BMS/Apogee contest-type tower launcher. Larry will handle the auction at RAMTEC. In addition, a kit will be donated as a door prize.

Old Business: None

New Business:

- Dale reported that he had been contacted by Michelle Bodine of Cub Pack 5, Lancaster/Landisville, requesting a rocketry demo sometime in late summer.
- George Beever stated that as he has been entering data into the Flight Log database, he has noticed instances of people attending one or two launches, displaying great enthusiasm for the hobby and/or the club, and then never returning. Possibly closer attention could be paid to this and the people contacted by phone.
- Tony Rossi then showed three more of his collection of 16mm NASA films.

The meeting adjourned at 9:05PM
